A different type of treatment – the Nuffield Treatment

Nuffield Health has run independent 'not-for-profit' hospitals for over 50 years, and with 31 hospitals around the UK we treated more than 450,000 patients in 2013.

Accessing private healthcare:

- You can pay for yourself
- You can use your medical insurance
- You can be treated as an NHS Choose and Book patient

Consultants:

We work with over 6000 consultants. All our consultants are fully qualified and registered with professional bodies, including the General Medical Council (GMC).

Infection prevention:

Results from our 2012 compliance audits for all Infection Prevention Standards was 92%, with Hand Hygiene Compliance at 96% and Environmental Cleanliness at 93%.

Matron-led care:

We are proud to champion the role of matrons. We believe their professionalism and pride in their work is central to the delivery of quality care for all patients. Whilst all our hospitals are very much forward thinking and innovative institutions when it comes to technological advancements in medicine, we are still passionate about the role of matrons.

Quality:

Quality standards and procedures are very important to us. We have been awarded NHS Litigation Authority Level 3. We are the only private hospital provider with this level of NHS accreditation. In our most recent survey of more than 30k hospital patients, 98% of respondents rated the care they had received as "excellent" or "very good".
